Re: Basement Waterproofing Job

Patrick, I want to compliment you and your crew on a job well done. I appreciate the preparation time spent installing a plastic tarp in the work area along with providing protection for my tile and carpet. There was no pressure and in particular, I was impressed with the thorough explanation of the work to be performed and the expected results. Since the work was completed in a professional manner, all my water problems have been solved.

It is indeed a pleasure to deal with an honest contractor that does not try to sell you any more than you need at very fair pricing. I would proudly recommend you to anyone in need of your services. Please feel free to have any potential customer contact me any time.

Sincerely,
